Apple Today 12:57 AM

Hello,

We noticed this is your first app submission and want to congratulate you on joining the Apple Developer Program. We look forward to working together on your submissions.

When App Review identifies an issue with a submission, we'll contact you with a message in App Store Connect with details about what we found and how to resolve the issue. Learn more about App Review and tips for a smooth review experience.

See below for additional information about the issues that require your attention fo
have any questions, we are here to help. Reply to this message in App Store Conne

Draft Submissions (1)

Review Environment

Submission ID: 00740318-bd69-4c34-a260-bcce5d743322
Review date: May 05, 2026
Review Device: iPad Air 11-inch (M3) and iPhone 17 Pro Max
Version reviewed: 1.0.0 (29)

Guideline 3.1.2(c) - Business - Payments - Subscriptions

Issue Description

The submission did not include all the required information for apps offering auto-renewable subscriptions.

The following information needs to be included in the App Store metadata:

- A functional link to the Terms of Use (EULA). If you are using the standard Apple Terms of Use (EULA), include a link to the Terms of Use in the App Description. If you are using a custom EULA, add it in App Store Connect.

Next Steps

Update the App Store metadata to include the information specified above.

Once the app and metadata includes all of the required information, or if they already do, reply to this message with a screen recording to confirm. Include this information in the Notes field of the App Review Information section in App Store Connect for future submissions.

Resources

Apps offering auto-renewable subscriptions must include all of the following required information in the app itself:

- Title of auto-renewing subscription (this may be the same as the In-App Purchase product name)
- Length of subscription
- Price of subscription, and price per unit if appropriate
- Functional links to the privacy policy and Terms of Use (EULA)

The app metadata must also include functional links to the privacy policy in the Privacy Policy field in App Store Connect and the Terms of Use (EULA) in the App Description or EULA field in App Store Connect.

Review Schedule 2 of the Apple Developer Program License Agreement to learn more.

Guideline 2.3.2 - Performance - Accurate Metadata

Issue Description

We noticed the app's metadata refers to paid content or features, but they are not clearly identified as requiring additional purchase. Specifically, your app description and screenshot references subscription features but does not inform users that a purchase is required to access this content.

Paid digital content referenced in your metadata must be clearly labelled to ensure users understand what is and isn't included in the app.

Next Steps

To resolve this issue, please remove these references or clearly mark paid content or features as requiring separate purchases.

Resources

- Learn more about this requirement in guideline 2.3.2.
- Learn how to upload screenshots and previews or edit app information on App Store Connect Help.

Support

- Reply to this message in your preferred language if you need assistance. If you need additional support, use the Contact Us module.
- Consult with fellow developers and Apple engineers on the Apple Developer Forums.
- Provide feedback on this message and your review experience by completing a short survey.
